

JUSTIFICATION FOR SOLE SOURCE (\$5k-\$250k)

Ref: FAR 13.106(b)

The service or material listed on (Document number) 4229-3850 thru 3855 is sole source and competition must be restricted to one source, or to only one brand name for reasons indicated below. There are no substitutes available for this material.

Restricted to the following source or brand name. Provide original manufacturer's name. (If a sole source manufacturer distributes via dealers, ALSO provide dealer information.)

Manufacturer: 212 Performance

Manufacturer POC & Phone Nr. 1-562-634-0080

Mfr. Address 6445 Montessori St. Las Vegas, NV 89113

Manufacturers Dealer/Rep 1 (888) 206-1457

Dealer/Rep Address/Phone Number May Tool Inc. / 15145 ILLINOIS AVE. PARAMOUNT, CA

90723

X Description of the item or service required, the estimated cost, and required delivery date.

Impact Leather driver Cut resistant gloves with a steel mesh palm, (Various sizes)

[REDACTED], RDD October 31, 2024

X Specific characteristics of the material or service that limit the availability to a sole source or particular brand name (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

These Impact leather Gloves have reinforced Thumb saddle, extended design for additional safety from grinding operations. This also extends the durability of the glove allowing more use out of them to protect the hands from grinding and sparks. These gloves provide an increased protection on the mechanic operating 8,600RPM 7" turbine grinder. The Steel Mesh impregnated into the glove palm and a para aramid cut resistant inner liner all provide extra protection from cut. This glove is only made by Performance 212. Code 106 tool review and machine guarding experts have required that we wear these steel mesh impregnated gloves to operate the "cubitron fiber disc" attachment on our most used grinder.

X The requested material or service represents the minimum requirements of the Government.

---

**CHECK & FILL IN ALL APPLICABLE BLANKS BELOW**

X The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed. Describe the equipment you have **now** and **how** the new item/service must coordinate, connect, or interface with the existing system.

We currently use 7" turbine grinders to grind on metal in shops and on the waterfront projects and gloves are not a requirement. Code 106 has requested the requirement of these specific gloves with the steel mesh and reinforced cut protection to increase safety for the mechanics. These gloves have been approved/required by C/106 for use with the 7" Turbine Grinders and Cubitron Disc. They will not impede with the user operating the grinder or any aspect of grinding operations. These gloves will work in giving a layer of protection with the steel mesh insert to greater increase the safety of our workforce operating grinders. This glove will be required to be worn by mechanics as they operate the 7" grinder WITH the cubitron fiber disc attachment.

     A patent, copyright, or proprietary data limits competition. The proprietary data is:

     These are "direct replacements" parts/components for existing brand name equipment.

     Other information to support a sole-source buy:

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND DO NOT CONTAIN CLASSIFIED INFORMATION. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE-SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
